1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Reinstate withdrawn claim 10.

The following is an examiner's statement of reasons for allowance:

2. The amendment filed June 14, 2007 narrowing the repeating unit range quantified by "n" in epoxy resin (A) of general formula (1) to from 0.5 to 5 as supported by Japanese priority application nos. 2003-083937 and 2003-083938 establishes the effective filing date of the instant application as that of the Japanese priority applications of March 25, 2003 which antedates the filing date of March 10, 2004 for Umeno et al. Patent NO. 7,023,098.

3. The limitation of Compound (F) to one containing adjacent hydroxyl groups on a naphthalene ring is not recited in Japanese Patent No. 2003-29352 which recites an ortho-phenolic compound. Accordingly, there is no motivation to incorporate claimed Compound (F) into the closest prior art compositions of Gallo Patent No. 6,432,540 and Iwasaki et al. Patent No. 6,242,110.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
